Company information:

BH Hair Club was established by Basilio Sciacca in 2009. After 15 years working as a professional hairstylist, Basilio created a range of products using the most pure, natural ingredients available. Basilio has spent several years researching traditionally used ingredients from around the world to formulate some of the best natural skin and haircare products available.

BH HERB CLUB products are made entirely with natural ingredients to revive the hair, the body, and awaken the senses. Many of the ingredients used to make BH HERB CLUB products are found in Far East countries such as China, Japan, and Thailand.

The BH HERB CLUB includes BH HERB CLUB Hair Range ( Shampoo, Conditioner, Hair Mask) and BH HERB CLUB Body Range (Body Bath, Body Lotion and Hand Wash) using only the finest extracts and essential oils.

The BH HERB CLUB is not only dedicated to using natural ingredients; we as a company have a strong belief in protecting the environment. We avoid using chemicals in our products, we promote recycling packaging and do not test our products on animals. We love the environment we live in, and want to do everything possible to promote a greener lifestyle.
