Company information:

BONA is a 100% human hair weaving company specializing in manufacturing wigs and hair accessories with skilled workers and technicians in Qingdao, China, and exporting those to the USA, Europe, and Japan as well as to Korea. In particular, human hair colouring technology of BONA is one of the world best technologies that no other company in the world can imitate. It is a source of BONA's pride, which insists on best quality.

Such world leading countries in fashion styled hair as USA, Europe and Japan have already recognized BONA's high quality and technology after using our high quality products. BONA HAIR and NPL, our fashion-hair brand, was born by BONA's own know-how, to make dreams of women in the world come true, who wish to discover an entirely different look for themselves based on the very best technology recognized in New York, Paris and London. BONA HAIR and NPL have been well received in home-shopping and online shopping malls since it has acquired a Patent Right in KIPO (Korea Intellectual Property Office), and has been elected as one of the TOP BRANDs in the world.

In order to realize the dream of every woman in the world, which is to uncover unique beauty of her own, we are making every effort to keep up with rapidly changing fashion trend and market, and grow as a leading company in the field both domestically and internationally. We wholeheartedly welcome your business partnership and consultation.

Thank you.
