Company information:

This year at Salon International we are bringing some incredible new products which cater to all levels of stylists. From our scissor vault we are introducing the PASSION ORCA. The ORCA is our new flagship model which has been brought to life with the help of many of our London based test monitors whose input and suggestions have helped shape it. 100% Handmade in Japan the ORCA has raised the bar for other scissors! We are also excited to introduce the new entry level scissors the KYOTO PHOENIX which both in terms of style and quality we know is going to be a huge hit. We are also bringing new combs, brushes & accessories from Y.S.PARK PRO TOOLS, such as the MESH DEFUSER, CARBON TIGER brushes, TORTOISE paddle brushes & 2 new additions to the best selling G-SERIES brushes. Salon International will also see the launch of an exclusive new colour to the YS PARK comb range. As always our hugely popular PASSION SERVICE CENTRE will be on site to take care of blunt scissors!
