Company information:

Arthur – The Professional Hairdressers Friend Company, Established Frankland Grinding Products, January 1986

Professional scissor suppliers, with all products made from the best quality Japanese Steel, with a certificate of metallurgy to prove this. We have Japanese cobalt 440C and titanium in 4-1/2", 5" and 6" in both left and right handed. Texturising and thinning scissors are also available in both left and right handed. A servicing facility is available on site and we have scissors from Japan, Argentina, France, Holland, America, Spain and many many more!

This year we have a full time team coming with us so there will be no queues – scissors will be serviced and tailored within minutes of customer arrival.
